

FLEXITRAK[™]
MORE THAN JUST TRACKING

THE VERSATILE, RECHARGEABLE GPS/GNSS UNIT

ENGINEERED FOR INFINITE POSSIBILITIES.

Introducing a flexible and innovative product that can be utilised for identifying almost any geographical location.

- ⊕ FlexiTrak units will last up to a maximum of 14 days on battery power alone when fully charged (dependant on unit utilisation).
- ⊕ Convenient LED indicator to easily check battery charge status.
- ⊕ GPS/GNSS and battery status indicators available on the web software.
- ⊕ Web software to review asset location history.
- ⊕ Regular update intervals of approximately +- 5 minutes.
- ⊕ Recovery services offered for stolen assets within the borders of South Africa.
- ⊕ FlexiTrak units are backed by a contractual life-long warranty.
- ⊕ Integrated with Autotrak web software and Mobile App.

CHOOSING FLEXITRAK

FlexiTrak can function independently or be integrated with other products in AutoTrak's product range for a comprehensive tracking solution.
