

Introducing Autotrak's New

ADAS

 | ADVANCED DRIVER ASSISTANCE SYSTEM

Enhancing driver safety, improving fleet visibility and supporting proactive risk management through intelligent driver monitoring and vehicle telematics.

**SMARTER DRIVERS. SAFER FLEETS. BETTER OUTCOMES.**

ADAS PRODUCT OFFERING – FEATURES & BENEFITS

REAL-TIME DRIVER MONITORING

In-cab alerts for distraction-related events:

- ✓ Driver fatigue and drowsiness
- ✓ Mobile phone use
- ✓ Hands off the steering wheel
- ✓ Looking away from the road for prolonged periods
- ✓ Driver distraction and inattention
- ✓ Smoking-related behaviour

IMMEDIATE AUDIBLE WARNINGS

In-cab alerts encourage driver corrective action before a possible incident occurs.

SEAMLESS INTEGRATION

Fully integrated with the Autotrak Web Platform and Mobile App (iOS & Android) for complete fleet visibility and control.

HANDS-FREE COMMUNICATION

Drivers can contact up to three pre-configured contacts via AutoCom.

AUTOMATED VOICE NOTIFICATIONS

Real-time voice prompts for key events:

- ✓ Trip start
- ✓ Speed violations
- ✓ No-stopping zone alerts
- ✓ High-risk / no-go area entry
- ✓ Driver fatigue alerts
- ✓ Off-route deviations
- ✓ Incident notifications
- ✓ And more

COMPREHENSIVE DRIVER BEHAVIOUR REPORTING

Detailed reports help you:

- ✓ Identify repeat offenders
- ✓ Analyse behaviour trends
- ✓ Track high-risk drivers and vehicles
- ✓ Take data-driven corrective action

DRIVER IDENTIFICATION

Verify whether a trip was initiated by an authorised driver or an unauthorised individual.

STOLEN VEHICLE RECOVERY

Recovery services available within South Africa. (T&Cs apply)
